

Exciting New News – November, 19, 2014 www.theburnerbooster.com

To our Burner Booster™ Customers and Their Friends

Energy Efficiency Solutions, The *Burner Booster*™ company, SELLS EFFICIENCY, not oil!

Natural gas and propane prices have doubled over the last 18 months,
while oil prices remains stable!

We want to share some exciting news! We are now working closely with a new company, **Advanced Burner Solutions Corp.** They will expand our sales and services throughout New England.

Beginning November 1st 2014, **Advanced Burner Solutions, Corp.** will offer a special diagnostic evaluation and service to both ***Burner Booster*™** and non-Burner Booster™ customers to help maximize their savings. Advanced Burner Solutions will support both residential and commercial ***Burner Booster*™** systems, the **new boosterized TS series, and some traditional oil burner accounts.**

Whether you're in small residential or commercial properties, we have state-of-the-art diagnostic adjustments and technologies to help you achieve maximum money-saving improvements. And, you can still use your regular oil service technician if you prefer.

The standard **evaluation charge of \$175 per boiler** will include diagnostic and some adjustments if permutable. Given that no additional parts are required, we anticipate that this adjustment will pay for itself 2x times over in each passing year. Please call now and book your appointment. This offer is available to all New England residents through 2015.

After five years on the market, The ***Burner Booster*™** Company is on the move and is getting ready to launch new technology, including a new product line for power generation facilities and large industrial plants.

New dealers and customer info log-in sheet. See our upcoming new line of products and technology and check out our new updated web site. For more help and info on service/sales, leave contact info at: information@theburnerbooster.com or check out our affiliated web site at: abssaves.com

As you have seen for yourself over time, the savings are real, with fewer service calls and cleaner systems.

Let us help be your advocate for efficiency.

The best way to help Advanced Burner Solutions get off to a great start, is to inform your neighbors and co-workers who have traditional oil heat systems. Allow our team to use our state-of-the-art

*technologies and advance testing procedures to tune up their systems, and discuss other ways to help maximize oil savings. **Please forward this.** **ALSO, see our testimonials.***

Thank you. We are your advocate to help maximize your savings on oil heat and keep you informed!
